

## COVID 19

Governor Newsom and the County Board of Supervisors strikes again. As of November 10, 2020, San Diego has been moved to the PURPLE TIER. This means all inside dining has been moved back outside. While the Mayors of some cities have chosen to turn the other cheek, our Lodge is located in the County of San Diego, not the City of Escondido. The County authorities have already contacted the Lodge (Don't forget, our own members turned us in and put us on the watch list). The County authorities have advised they will be enforcing the Purple Tier regulations, along with the fines that go with infractions. Therefore, we must move dining operations outside. In the summer, we could make this work in the park, but the Fall/Winter temperatures are too cold most days to offer meals or events in the park. For these reasons, the Lodge is Closed until December 1, 2020's COVID 19 report for San Diego County. With any luck, we'll move back into the RED TIER, not great, but better.

With the help of the Fleck family, we may have a temporary solution, but that is currently in the works. For the immediate future, ALL dinners, breakfasts, and events have been cancelled. We will contact you by email or on the Website, if a solution presents itself to move into the park without being too cold and/or safe for our members to come out to the Lodge. If this happens, we will have a modified calendar and we will re-open the Lodge (outside) under the new COVID 19 PURPLE TIER regulations.

Hang in there with us. We will open as soon as we can, legally. We may be able to offer some dinners or breakfasts to go, it depends on our volunteers. Just keep checking the website at [Moose1874.org](http://Moose1874.org) or your emails for weekly updates. Have a Happy Thanksgiving with your family and close friends.

God Bless. Stay Safe,

Lodge 1874, Chapter 1310
