

## Escondido Moose Lodge 1874 - Member Assistance List

To keep the lodge looking its best for 2026, here is a list of maintenance and improvement tasks that need doing. If any of these tasks interest you, please speak with a board member or the bartender.

- Install the new tile on the floor of the kitchen storage area
- Deep cleaning of all trash cans in the lodge and park area
- Pressure-wash the area outside the kitchen door (grill area)
- Trim shrubs and trees behind the serving area in the park
- Ensure outdoor railings are stable and walkways are free of tripping hazards like loose stones or pavement cracks
- Dust high-reach areas like ceiling fans and HVAC vents
- Organize storage pantries by discarding expired items
- Inspect restroom sinks and toilets for slow drains, leaks, or faulty handles that need tightening

Most members don't realize how much work it takes...it's about a common goal to make our lodge the best it can be, and it takes each member to make it a great place.

By contributing even a few hours of your time, you are doing more than just fixing a leak or painting a wall – you are protecting your investment, building community and setting the standard.

All of these tasks contribute to keeping the lodge in great condition.

Remember to let a board member or the bartender know which task you'd like to take on.

*Thank you!*
